Division of Mineral Resources, Region 7  
615 Erie Boulevard West  
Syracuse, New York 13204-2400

Dear Mr. Spadafore

The Town of Windsor Planning Board has reviewed the application for Bluestone Exploration permit by Ken Springsteen of 182 Mountain Road for a quarry off Hartz Road.

Concerns we hope can be addressed include:

- That a SEQR form be completed;
- Applicant should estimate the impact on town roads and bond for potential damage;
- Applicant must adhere to Section 68 of our Town Code pertaining to Noise Control (LL #4-2010);
- Applicant should have a plan to mitigate the deposit and tracking of dust and stone on town roads (as prohibited in Section 43 of our Town Code [LL #3-2009]) and referred to in section iii of your Oct. 28, 2013, letter to Windsor Town Supervisor Caroline Price.

A copy of the minutes of the Planning Board's meeting is attached.

Respectfully submitted,

Bruce Cameron,  
secretary
