

Want to help your community by serving with your local volunteer fire company, but just don't think you're going to be able to run into burning buildings? Don't worry. It's a misconception that running into buildings is all we do. For every interior firefighter, there are several people working in support roles or behind the scenes, doing jobs that are equally necessary and important. There are service opportunities available for those of all ages (16 and up) and physical abilities.

Stop by the station and ask about membership opportunities.

We are there MOST Monday nights from 7-9 PM

Or call 775-4430 and leave a message, we'll set up a time that's convenient for you.

Membership Categories:

Interior Firefighter: These members are firefighters approved to wear Self Contained Breathing Apparatus(SCBA) and work in and near fire scenes where smoke and intense heat may be present. Must be able to climb ladders, pull hose use firefighting tools ,perform rescues and carry equipment in excess of 50 pounds.

Structural Firefighter-non SCBA: These firefighter do the same jobs as Interior Firefighters, except not in environments that require the use of SCBA.

Apparatus Operator and Fire Police: These members drive trucks, operate pumps and other equipment, direct traffic and perform other on scene support activities as needed. Does not normally climb ladders, exert heavy physical exertion or carry equipment in excess of 35 pounds

Administrative and Support Staff: These members do not work at emergency scenes. They perform in station administrative work, station maintenance, assist with fund raising or whatever jobs their abilities and talents allow them to. The behind the scenes heroes of the fire service.
