

Town of Windsor Planning Board Vacancy

As a local Windsor resident, I am very interested in participating and becoming a member of the Town of Windsor Planning Board. The affect that local government has on its residents' daily lives, from taxes, to local zoning and beyond intrigues me. By becoming a member of the Planning Board I feel that I would not only be able to contribute my ideas, but also be able to learn and understand our community even better. I already have many ideas for our town and I would enjoy working with other local residents to help better our area.

I am currently employed at the Broome County Public Defenders Office, as administrative support staff. I feel that my employment has allowed me to better understand our community as a whole and learn what may be more beneficial for our residents, something that many others may not be able to relate to or understand. Ultimately moving forward, this position would allow me to help create a better community for our future generations. As someone who has grown up in Windsor, moved away and has come back you realize and appreciate the sense of community and how much we can accomplish together.

Respectfully Submitted

Ryan P. Glovich
